

SHELF-READY PACKAGING

THIMM rapidStack is a stackable crate for high product weights with 50% less time required with manual assembly compared to standard versions. The high stability of this packaging is thanks to the effective use of materials as only load-bearing elements are reinforced.

THIMM rapidStack

Stackable crate with efficient assembly

CUSTOMER BENEFITS

50% less time required with manual assembly

- » Quicker assembly compared to standard crates
- » Good product visibility and access from all sides

High stability due to effective use of materials

- » Suitable for heavy product weights
- » Safety when stacking due to stacking corners

APPLICATION AREAS

- » High product weights
- » Glass goods, cans
- » Detergents
